HIGHER DUTY OF A NEWSPAPER

Not Obliged to Sanction Every Candidate of its Political Party.

New York, March 8 .- In deciding whether or not a certain New Rochelle newspaper can be called "Republican" when it has at times refused to support minor candidates of that party. Justice Woodward says:

"The mere fact that a newspaper refuses to give its sanction to every candidate who is placed in nomination in the name of a great political party is not conclusive of its standing as a fair representative of the party; there are times when newspapers owe a higher duty than allegiance to a mere party name, and under such circumstances they are not to be judged from the standpoint of those whose selfish purposes may be interfered with but by what Emerson would call the "average tendency."

JANER'S TRIAL FOR ABDUCTION IS POSTPONED

Wealthy Brooklyn Man Faces Death if Convicted of the Crime Charged.

(Special from United Press.) Baltimore, March 8.-The trial of Joseph M. Janer, a wealthy Brooklyn man charged with the abduction of 11 year old Catherine Loersch from her Brooklyn home five weeks ago, which was to have begun to-day in the Baltimore county court at Towson, before three judges, was postponed until Wed-nesday. A possible death sentence awaits Janer.

Janer elected to be tried before three

judges instead of the usual jury and judge, in the hope that he would thus stand a better chance of escaping the death penalty owing to the intense in dignation felt throughout the city over his offense of five weeks ago. At first Janer seemed indifferent to his posi-tion but he is now in a highly nervous state, according to his counsel, Edward C. Clark. While no statement has been made as to the nature of the defense it is believed the plea of insanity will be advanced. This is the theory of the prisoner's wife, who renounced him when she learned what he had done. The Loersch girl has been at the House of the Good Shepherd here since she and Janer were discovered in Wendeller's Hotel here. GREAT BLIZZARD **SWEEPS EUROPE**

Death List Will Reach 200 and Property Loss is Immense.

(Special from United Press.) Vienna, March 8.-A total death list of more than two hundred with millions of dollars worth of property destreyed, will result from the blizzard that has raged throughout a large part of Europe for the last three days, according to straggling reports that are reaching here today. It is known that more than 150 persons have been killed in avalanches in the Austrian moun-tains alone. A farmhouse at Granz was buried, killing seventeen persons, some of whom were children.

Forty people lost their lives in the crushing of a shelter house for railway men in the Anlauf Valley. Twelve

men were rescued from this house. When telegraphic and railway com-munication is restored with many places that are now isolated it is believed that the casualties will be found to be greatly increased. The storm was the most severe in recent years and the suffering in its path is such as to call for public recognition.

EARLY COAL STRIKE UNLIKELY

Miners Not Expected to go Out Before Fall.

Wilkesbarre, Pa., March 8 .- In the opilnion of a man who was here with the mine workers' representatives during the last three days there will be no strike of the anthracite workers even if the operators refuse all the miners' demands, as they have publicly said they would.

It is his belief that if the operators

persist in their refusal to grant any concessions the mine workers will be advised by President Lewis and the district officers to remain at work for the summer, while the union is being strengthened, and wait until fall when there is a brisk demand for coal be-fore taking further action.

RAILROADS SHOW INCREASED EARNINGS POWDER EXPLOSION

(Special from United Press) New York, March 8.-With official figures at hand as filed with the Inter-State Commerce Commission at Washington, financial interests here are jubilant over the showing of near-ly every railroad in the country. Instead of the deficit shown in January 1908, big gains in operating revenues were made for January of this year. Every line seems to be doing far bet-ter than even the most optimistic anitcipated and the February estimates indicate February was a better month than January.

The leading official figures of increase are: New York Central, \$428.366; Illinois Central, \$408.399; B. & O., \$186.334; Southern Pacific \$4,264; Oregon Short Line, \$313.050; Michigan Central, \$46.192; Lake Shore & Michigan Southern, \$466.284; C. Flatulency or Wind On Stomach

As It Is Commonly Named, Means That Decaying Food Is Making Gas.

This most serious condition is very prevalent and results most distressingly and fatally oftentimes. The stomach in cases of flatulency is unable to digest the food properly. Decay sets in, gasses form, extend the stomach, force their way downward into the bowels, and if not relieved it extends upward pressing against the extends upward pressing against the lungs, liver and heart, causing short-ness of breath. belching, foul odors and many times sudden death. Foods which are filled with gase

when taken into a deranged stomach cause flatulency rapidly, vegetables be-ing especially given to this quality. Against such a condition the stomach can do but little, because these foul and poisonous gases affect its glands, muscles and tissues to such a degree as to incapacitate it almost at once.

These gases distend the stomach in all directions, preventing the contract-ing muscles from doing their regular duties, or if they do force the gas from the stomach it goes elsewhere in the system with even more harass-ing results, and then the decaying mass still remains to generate more

The most effective method for allaying flatulency is to remove the cause of gas making. An emetic will do this but the stomach will have the same trouble the moment new food enters it.
